State Officers Are Elected by the State W.C.T.U. Convention

Those Who Have Served Were All Selected to Fill The Same Places for Next Year--Over Six Hundred Reported by Credentials' Committee as Being Entitled to Vote Upon Call of Roll

ORATORICAL CONTEST WAS THE FEATURE LAST NIGHT

Big Meetings Characterize the Sessions in First M. E. Church--Women Earnestly Champion the Cause of Equal Suffrage in Every Speech and Act--Other Churches Serve Meals--Delegates Being Entertained About Town--Some Enthusiastic Incidents Are Reported--President Richards Reads Her Annual Report for Past Year.

The State W.C.T.U. convention at the First M. E. church opened for the second day with a most inspiring prayer and praise service which was conducted by Mrs. Emma S. Townsend of Martinsville.

The convention was called to order by the president, Mrs. Florence Richards and the minutes were read by the recording secretary, Mrs. Meredith of Canton.

The music was led by Dr. Effie Berthoff and following the miscellaneous business Mrs. Viola D. Romans of Columbus, corresponding secretary, made the final report of the credentials committee.

The report made was: that out of the 88 counties in the state, 81 were represented by delegates; 70 county presidents are present; 5 state officers; 6 trustees; 27 state superintendents; 1 editor of Ohio Messenger; 2 branch secretaries; 12 organizers and house-to-house workers (not otherwise represented) 569 delegates; 654 total voting strength of the convention. The report was adopted without amendment.

The tellers were then appointed to collect the ballots for the vote for state officers and trustees.

Following the balloting, two verses of a hymn were sung and the prayer for the guidance of the election was made by Mrs. Hollingshead of Cleveland.

The ballots were perforated and each officer was voted on separately, the whole consuming the greater part of the morning.

A Y. P. B. conference was announced for 1.30 in the Y. P. B. room.

Following the voting on state president, the office of corresponding secretary was next considered. The office of state vice president is appointed, the incumbent being nominated by the president and elected by acclamation.

Upon the disposal of these ballots the recording secretary's office occupied the attention of the convention.

The office of state treasurer now occupied by Mrs. Florence Jaito, was the next election considered.

Two members of the board trustees retire this year, the retiring members being Mrs. Carrie L. Flatter of Yellow Springs, and Mrs. Emma Spencer Townsend of Martinsville. A vote was taken to replace these vacancies.

The report of the first and nominating ballot for state president showed Mrs. Frances Ensign Fuller, 3 votes

Mrs. Viola D. Romans of Columbus, 38 votes, and Mrs. Florence D. Richards, present officer, 583 votes. There were 624 votes cast, and 312 were necessary to elect. Mrs. Romans, state's corresponding secretary, made a motion that the nominating ballot be made the electing ballot, and that the secretary of the convention cast the ballot of the convention for Mrs. Richards for state president for her further tenure in office.

Enthusiastically was the suggestion received and the vote was received by the convention rising to its feet and the cry "White ribbon, white ribbon, white ribbon, hurrah! Richards, Richards, Richards."

Mrs. Richards feelingly responded and thanked the convention for the honor, and in a well applied little story concluded her talk.

The vote for corresponding secretary was given. Six hundred and forty-three votes were cast, 322 being necessary for choice. A numbering of scattering votes were cast and Mrs. Viola D. Romans, present incumbent, received 560 votes. The nominating ballot was made the electing one, and Mrs. Romans was elected state corresponding secretary for the eighth time.

Mrs. Romans responded to the honor and said her first appointment to office in the W. C. T. U. had taken place in Newark, seventeen years ago, and she has held an office since that time. She predicted a great epoch in the history of the state and said that the greatest victory would be when Ohio is swung into the dry column of the states.

The tellers then reported on the recording secretary. Again a number of votes of 1, 2 and 3 and up to 14 were cast for various members. Six hundred and twenty-five votes were cast, and 312 were necessary to choose. The present recording secretary, Mrs. Sarah K. Meredith of Canton, was nominated and declared elected. She received 548 votes.

Mrs. Meredith gratefully accepted the honor and thanked the convention.

The ballot on the state treasurer was then reported. Six hundred and thirty-two votes were reported and 312 were necessary to elect.

Mrs. Florence P. Jaito of Boston, much beloved by the convention, was nominated by 611 votes. The nomination was declared an election, and Mrs. Jaito was installed. She has held the office for 14 years.

She said the convention must blame the state presidents for her holding. (Continued on Page 2, Col. 1.)

Von Bernstorff in Statement Alleges That England Incited Belgium to War and Deserted

Washington, Oct. 15.—Count von Bernstorff, the German ambassador here today issued the following statement:

"Concerning the Anglo-Belgian military agreement existing since 1906, a formal denial has been issued by England which proves nothing. The documents are in the hands of the German authorities and will be published in full. The facts remain that a so-called 'neutral' country concluded a military agreement with England, which provided for landing of British troops in this 'neutral' Belgium, accepted the British offer and decided to fight on the side of the allies.

many, on the other hand, had heard of Belgium's agreement with England at the beginning of the war, offered to protect Belgium and to pay full indemnity for her losses. Germany would have religiously kept her promise.

"The documents found in Brussels further prove that as far back as 1906, England was systematically trying to bring about the coalition which has now forced war on Germany."

Congressman Says Time Has Not Come When the Martial Spirit of Her Sons Should be Destroyed by United States

Washington, Oct. 15.—Inquiry into the preparedness of the United States for war, "offensive or defensive," by a national security commission was proposed in a joint resolution introduced in the House today by Representative Gardner of Massachusetts, who recently returned from the war zone in Europe.

"I have introduced this resolution to investigate the military status of the United States," said Mr. Gardner, in a statement accompanying the resolution, "because I know that a public search will open the eyes of Americans to a situation which is being concealed from them. The United States is totally unprepared

for a war, defensive or offensive against a real power. In my opinion the effect of the vast sums of money spent by Carnegie in his peace propaganda has been to blind Americans to the fact that our national security from a military point of view is undermined."

Mr. Gardner, referring to the prosperity and peace of the United States and to the "wonderful South American continent which we have closed to Europe colonization by the Monroe Doctrine," declared that he could not understand "how any intelligent student of history can fail to see that we are impotent to defend ourselves and to enforce the Monroe doctrine by moral suasion and financial might alone."

"The time has not come," he asserted, "when the U. S. can afford to allow the martial spirit of her sons to be destroyed, and all the Carnegie millions in the world will not silence those of us who believe that bullets cannot be stopped with bombast, or powder vanquished by platitudes."

Mr. Gardner further declared in his statement that respect to the present European war concerning which he had some personal insight, having been in the zone of conflict, his views "were not those of neutral."

ACTIVITY BEGINNING ON ALLIES' RIGHT AND ARTILLERY FIGHTING IS ALMOST CONTINUOUS

Germans Delivered a Spirited Attack On French Troops but Were Repulsed.

Paris, Oct. 15.—The right wing of the allies is now beginning to show signs of activity. According to reports reaching Paris this morning there was yesterday an almost continuous firing of heavy artillery along the frontier. A force of Germans delivered a spirited attack on French troops in which numbers were wounded.

As night closed this force of the enemy was driven back in the direction of Muehlhausen.

Lieut. Col. Roussel, the French military critic, in his article today declares that the recent official communications are lacking in clearness and that it is impossible to find in them any indication, even an absolutely harmless one, of the present military situation.

Colonel Roussel says he calls attention to this fact without any thought of recrimination. He is well aware that it is difficult to reconcile the legitimate curiosity of the public with the safeguarding of national interests but when these interests are not at stake more liberality could be shown. The French people have given evidence of dignity, firmness, abiding and patriotism, and they should be taken more into the confidence of the government.

In concluding his article the critic points out several instances in which in his opinion, the official communications have been lacking. The Hotel Belleville (down hall of Arras, which was burned down after the bombardment of that place, was a building of Gothic style. It was erected in the beginning of the sixteenth century and was one of the finest types of this style of architecture in northern France.

PRIZE FOR BAND. The Burkese band of this city, which accompanied St. Luke's commandery to the Knights Templar conclave at Columbus Wednesday was the recipient of many compliments for its excellent appearance in the line of march and the music furnished. The band was augmented by the addition of H. Siebold, cornetist, and El. Matson, tubist, both well known and leading musicians of Zanesville.

LAST CHANCE TO REGISTER NEXT 2 DAYS

Newark voters who are not already registered or who have neglected to get transfers, will have two more opportunities Friday and Saturday of this week. On both days the registrars will be on duty from 8 a. m. to 2 p. m. and from 4 to 9 p. m. It is important that voters make sure that their names are properly entered. If you registered for the 1912 election and have not moved it is not necessary to register anew. If you were transferred before the 1912 election and have not moved since that time you are safe. New arrivals voters who have moved or those who have attained legal age since the last election, or who will be of age on or before election day, must register if they wish to vote.

The days are Friday and Saturday. The hours are 8 a. m. to 2 p. m. and from 4 to 9 p. m.

TRIESTE HARBOR ARSENAL FIRE DAMAGES BOATS

London, Oct. 15.—Fire in the government arsenal at Trieste, the principal source of Austria-Hungary's armaments, was virtually destroyed on Wednesday according to dispatches from Rome.

Six torpedo boats were damaged, and a workshop, in which work in the armaments of wood, metal and other materials was being carried on, was also damaged. The arsenal is greatly damaged.

PRESIDENT SIGNS ANTI-TRUST BILL; NOW BECOMES LAW

Washington, Oct. 15.—President Wilson today signed the Clayton anti-trust bill, completing the administration's program. There was no connection with the signing of the bill.

TRANSFER OF RUSSIAN TROOPS FROM EASTERN TO WESTERN ARENA DECIDED UPON

According to German Arriving in London—Many Troops of Kaiser are Sick.

London, Oct. 15.—"Germans arriving here," says the Copenhagen correspondent of the Times, "state that owing to the failure of the Russians to make progress against the Germans, the Germans have decided to immediately transfer considerable masses of troops from the east to the western fronts for an advance on Paris."

"This transfer probably already has begun as ordinary train traffic is delayed 48 hours."

From the same source, the correspondent says he learns that there is a large amount of sickness among the German troops.

"The plans for the occupation of Paris drawn up by the Germans before the battle of the Marne," continues the correspondent, "contemplated a demand for an indemnity of a billion dollars, and unless the entire sum was paid within a fortnight property of equal value was to have been taken to Berlin, including art works and libraries, and detained there until full satisfaction of the indemnity was made."

CHOLERA MAKES RAPID STRIDES AMONG THE HUNS

Venice, Oct. 15.—(Via Paris.)—According to reports reaching Venice, cholera is making rapid strides throughout Hungary and the progress of the disease is causing alarm among the people.

The Hungarian authorities, it now appears, were too lax in the beginning in the matter of the sanitary supervision of prisoners' camps. These camps have been placed under special control. Prisoners no longer are permitted to camp in the open air, and now all suspect cases are being isolated in hospitals.

EX-SPEAKER WINING DEAD.

Columbus, Oct. 15.—Word was received at the governor's offices here today of the death of Samuel J. Vinings, of Celina, Democratic speaker of the house in the 74th general assembly. Mr. Vinings' death followed an operation for appendicitis.

ENGLAND SENDS DOCTORS TO HELP FIGHT DISEASE

As it is Known That Typhus Has Broken Out in Some of the Camps of Germans—These Will Co-operate With Field Medical Staff to Avoid Dread Disease Getting Grip On Allies' Troops—Ostend is Now Deserted Except for Crowds On Quays Waiting Chance to Depart.

(ASSOCIATED PRESS TELEGRAM) Paris, Oct. 15.—The official communication given out by the French war office this morning is as follows:

"In Belgium, German troops coming from Antwerp are marching toward the west and the evening of October 14, they reached the region of Bruges and Thielt, 15 miles south-east of Bruges.

"First—On our left wing, the enemy has evacuated the left bank of the Lys. Between the Lys and the canal of LaBasse, the situation shows no change.

"In the region of Lege and between Arras and Albert our progress has been marked.

"Between the Somme and the Oise there has been no change. The Germans have cannonaded our line without however, delivering any infantry attacks.

"Second—On the center between the Oise and the Meuse, we have advanced in the direction of Craonne. To the northeast of the highway from Berry au Bac to Reims and to the north of Prunay in the direction of Belne several German trenches have been taken.

"Between the Meuse and the Moselle, after having repulsed during the night of October 13 and 14 certain attacks to the southeast of Verdun, our troops advanced on the 14th to the south of the highway from Verdun to Metz.

"Third—On our right wing, the partial offensive movement undertaken by the Germans in the Ban de Sapt, to the north of Saint Die, has been definitely checked.

"In Russia, the fighting continued along the front beginning in the vicinity of Warsaw stretching along the Vistula and the San as far as Przemyel and further in a southerly direction as far as the Dnieper.

"There has been no change in East Prussia."

(ASSOCIATED PRESS TELEGRAM) London, Oct. 15.—The gloom which has enveloped England since the fall of Antwerp has been somewhat lightened by the news contained in late communications that the allies are more than holding their own in the furious fighting along the Franco-Belgian border; but this feeling of elation has been tempered by the

growing realization that the Russian invasion of Silesia, which was believed to be imminent, must be postponed indefinitely pending the outcome of the battle in Russian Poland.

Russia in the east seems to have been compelled to follow the steps of her enemy in the west, and sacrifice the fruits of her victories by sending reinforcements to another part of the long battle front. The resumption of the Austro-German offensive in Galicia was an outcome of the action of Russia in sending heavy reinforcements to the river Niemen, evidently under the impression that the German invasion of the Suwalki district was a real menace and not merely a diverting movement. The withdrawal of Russian forces from Western Galicia, however, is regarded here to be not as complete as first reported, for Vienna admits that Przemyel is still invested on one side, while Petrograd reports that the garrison of this fortress has been invaded by disease and is on the point of capitulation. Other despatches from the Russian capital refer to activity along the Vistula river, where several attacks are said to have been repulsed, and declare that the great battle probably is now under way unless the Austro-German advance has been hampered by bad weather.

Some idea of the fierceness of the fighting in Western France can be gained from the fact that the town of Roye, now in possession of the allies, has been taken and retaken no less than twelve times. There is no question in the minds of British observers that the German army is making desperate efforts to reach the channel coast, and that the allies are no less determined to prevent such an extension of the battle line.

England already is speculating on the possibility of a German raid, which could only become possible if the Germans are successful in securing a base on the coast opposite the narrow part of the English channel. The Germans are reported as having been turned out of that corner of French territory which juts into Belgium and, having retired, they are said to be strongly entrenched. The report declares that the Germans intended to dash on Calais coincidentally with the attack on Antwerp but their efforts in that elation has been tempered by the

Kaiser's Headquarters Moved Farther Into France While His Troops March to Frontier

(ASSOCIATED PRESS TELEGRAM) Berlin, Oct. 15, via wireless to Sayville, L. I. Information concerning the progress of the war was given out in Berlin today as follows:

"German troops in Belgium are now marching in part towards Ostend and in part in a southwesterly direction toward the French frontier. The headquarters of Emperor William have been moved further into France. The Russian armored cruiser Palada, of 3,000 tons, built in 1896, has been torpedoed by a German submarine at the entrance of the Gulf of Finland. The torpedo launched by the submarine caused an explosion on board the cruiser and the Russian vessel with her entire crew of 600 men went straight to the bottom.

"There has been heavy fighting in France east of Soissons and the Argonne. The French official report about successes in the Woivre district are untrue. The Germans nowhere have lost ground.

"Fifteen, 12 miles to the east of Verdun is in German hands. French attacks against our position near St. Mihiel have been repulsed. The war

bounty secured in Antwerp cannot yet be estimated. Twenty-six thousand Belgians and 2,000 Englishmen have been interned in Holland. In the harbor of Antwerp we found 22 German steamers, the boilers of which apparently had been disabled.

"Russian forces have been defeated near Schirwindt, in east Prussia, 19 miles to the east of Gumbinnen, with a loss of 1,500 prisoners and twenty cannons. German troops have repulsed the Russians south of Warsaw and hold southern Poland as far as the Vistula river. Emperor William, acting on a petition handed him by Cardinal Hartman of Cologne, has ordered that French Catholic priests among the prisoners in Germany who entered the French ranks as common soldiers shall be treated in Germany in the same manner as are French officers.

"It is reported here from Stockholm that German torpedo boat destroyers discovered six vessels of Norwegian, and Danish nationality loaded with goods and provisions destined for London and Grimsby and also for Russia. All were taken into Swine-mund."

on to the office, and she thanked the convention for the honor.

Mrs. Frances Ensign Fuller of Madison was nominated by the president for vice-president-at-large, and she was unanimously selected by the convention. Mrs. Fuller told of her past experience and in a happy way thanked her co-workers and thanked the president for the honor.

A motion to adjourn was carried.

The report shows a gain of 628 in membership during the past year. Cuyahoga county ranked first in the county dues paid and Muskingum county ranked third.

After the various reports the assemblage was favored by the annual address of the state president, Mrs. Florence D. Richards of Columbus.

Mrs. Frances Ensign Fuller, of Madison, vice president-at-large, told of the work done by the state president and asked the audience to continue quiet during the annual address.

Dr. Effie Bertholf, the possessor of a wonderfully sweet and appealing voice, sang a solo, creating a most receptive atmosphere for Mrs. Richards' talk, which was in part as follows:

President Richards' Address.

"Dear comrades, another year has entered into the great past. Through it all we say God is with us and for us. We have come to build a stronger defense around the home, the church and the school. But as it is beautifully located, it has a serpent in its midst. It is well that this convention should be here, where that young martyr Carl Etherington met his death. It was not Newark that did this, but the saloons."

An excerpt from a Columbus paper was read telling of a meeting of the brewers to assess the liquor dealers for the liberal campaign.

"Then the Home Rule measure was framed. It was named this to confuse the voter. It is anything but 'Home Rule.' It is Slum Rule."

DR. EFFIE L. BERTHOLF.

Bum Rule, Rum Rule, and Home Rule."

Then the text of the proposed amendments was read by the speaker, who said that the passage of the new law would destroy even the regulation and restriction now enjoyed.

"That Timothy Hogan should deem it necessary to tell what the law means should in itself be enough."

Thirty-six hundred women in the state of Ohio must arouse the other women.

"Death has not only entered into our doors, but even into our windows. It has entered not only our hovels but our palaces. Not much can be done until November 3, but we can call to the men and women."

"We are already organized and we want all women to work with us. Organize the church women to tell the voters not to be deceived by the innocent text of the Home Rule Bill."

"The wets have their own organ, which is printed in Columbus and which enters the homes of the state. The saloon men practice truth with very bleak economy."

"See that voters whom you can influence place their cross mark before the 'No' on the 'Home Rule'."

"This is the day for which we have been praying for 40 years. We must win our suffrage amendment and I

believe we will. Too long has the saloon held sway.

"The army of drunkards in the world today is made up of the one time best and brightest manhood. The brightest are the easiest to succumb. A mere tank is not seriously affected from over abundance; it cannot reach his brains because there are none."

The speaker quoted the names of great warriors, poets, and professional men, and howed how they had succumbed to dissipation.

"The ruin wrought by the liquor traffic is amongst the brightest and best, not the lowest and the worst. The greatest convention ever held was that held in Columbus by the W. C. T. U. and then it was decided only nation-wide prohibition could right the wrongs."

The speaker told of the members of the W. C. T. U. who marched to the capitol at Washington and said, no greater step had been taken in Washington since the emancipation act of Lincoln.

"We shall win, sisters, we shall win."

"The Bells of Heaven will issue our ship of Temperance in."

"This battle of ours is not so much a fight as it is a love-affair. Love for humanity, love for the home, love for the children, love for the country, love for the sorrowful and fallen women."

"This fall let us hope you will slay this monster. Let us hope you will put the ballot in the hands of women for their own protection. I think we are going to win this year. Never have we found people so willing to listen, so willing to aid us. When we mention suffrage now we are enthusiastically applauded."

"The W. C. T. U. stands today opposed to war."

"Our fight will be fought this year not with bullets but with ballots; three hundred thousand have enrolled themselves in this fight against rum and for the ballot."

Indorses Progressive Party.

"The Progressive party, which peiled over 200,000 votes in 1912, has come out this year for Prohibition and Women's Suffrage. We

ought to extend to the Progressive Party a vote of thanks."

Miss Richards then told of the many organizations which have endorsed the prohibition and suffrage measures.

"The reason that women should vote is the same reason men should vote. We must win this year because that means victory in New York and Pennsylvania. We must do more in our rural communities."

"The poor, weak little working girl needs the ballot for her protection."

Scores Secretary Bryan.

"Bryan did not have the courage to speak for suffrage in Ohio, but he did come out in Nebraska for it."

"I have been greatly pleased over an editorial in the Independent," and then the speaker read the editorial which dealt with suffrage for women.

"A business woman today is not an inferior imitation of man, but a different person entirely, but just

gave the 'Young Crusader's rally cry'."

An exercise entitled "Men and Women Tomorrow" was given by the children. Each represented some trade or a profession and told how they abstained from liquor and tobacco.

Donald Cross, then sang a solo, and finished with a verse of the "Star Spangled Banner." But a small bit of a boy he is the possessor of a beautiful voice.

A young woman wearing banners, with the name of the prohibition states, each girl representing a state were greeted by a little girl in white who placed on the head of each a chaplet of green leaves.

The corresponding secretary, Mrs. Romans, said that the preliminary credentials report was a disappointment. Thirty-five counties reported in 118 delegates. The county presidents were urged to return the credentials blanks.

Summit county presented their president with a beautiful cluster of white carnations. The president is Mrs. Mattie Chambers and she was also presented with a book.

Five minutes time was devoted to "How My Department Helps in the Present Campaign." The heads of the different departments responded.

Mrs. Olive K. Dean of Xenia speaking first on "Christian Citizenship."

At the close of the demonstration by the school children the assemblage was so inspired with enthusiasm that a motion was put by the state president, Mrs. Richards, that the children assemble again on Thursday afternoon and that the convention would adjourn at 1 o'clock and in a body, follow the 20 children attired in red caps, and wearing pennants pinned to their clothing, reading:

"The Liquor Traffic Must Go." A big mass parade was held around the business part of the city. The W. C. T. U. joined with the Christian Endeavorers, who are also in convention here on Thursday and Friday.

The arrangement was impracticable, but it was one of the big features of the work.

Tuesday Night.

Varying the routine of the general business sessions of the state convention of the W. C. T. U., Tuesday evening was given over to the Grand Diamond Medal contest, and in spite of a steady down-pour of rain, the joint auditorium and Sunday school room of the First M. E. church was thronged with delegates, visitors and local enthusiasts in the work promoted by the women's Christian Temperance Union.

Mrs. Emma L. Brown, of Xenia, O., is the author of the Diamond Medal Contest was given.

This is the occasion for which an advertisement is made, and it was in the nature of an entertainment.

The program was opened with a solo by Mrs. Ruth S. Evans, of Hancock county. Mrs. S. Evans possesses a sweet contralto voice and she was followed by Rev. J. A. Sheldon, superintendent of the work at Sparta, O.

Mrs. Sheldon made a most impressive prayer, soliciting for holy and wisdom in the work of the union, especially at this time of the campaign.

Dr. Effie L. Bertholf, of Cleveland, state musical director, whose voice has played the assemblage at all the sessions, sang "Behold, What Manner of Love."

subject, "Aunt Columbia's Kitchen."

The subject dealt with the political phase as it affects women. "Men have constructed the filthy pool and a lovely mess they have made of it. Now why not turn women's votes into it. It may be the very brand of sweetness it needs. Uncle Sam's kitchen needs a thorough cleaning out. Aunt Columbia has the ideal kitchen. We bring to our brothers this thought tonight, 'You are going to bring to us the right to vote.'"

Success Is Predicted.

Contestant No. 2 spoke on the "Defense of the Alamo." No more thrilling fight ever took place than the defense of the Alamo. Did those men say it was impossible. Captain Travers drew a line and said every man across the line.

"Today another fight is on. A tried and brave band is now waging a war. God is in this battle and the result is sure."

"Where liquor traffic abides one out of every five boys must become a drunkard. The weakness of the church people today is 'can't.' The saloonkeeper 'can' and today we learn the horror of that 'can't.'"

Donald Cross, the boy soprano, won his audience with his solo, "Ohio." The boy is a musical genius and his voice makes a big appeal to any audience.

Sacrifice and Victory.

Contestant No. 3 ably developed her subject, "Sacrifice—The Victory Spirit." For many years the W. C.

T. U. has suffered sacrifice but never will it accept defeat.

Liquor and Suffrage.

"The Relation of Equal Suffrage to the Liquor Traffic," was the subject chosen by Contestant No. 4. She told how history showed that the great nations of the earth had their problems. "Reforms move slowly," said the speaker, "because the masses must be educated."

"Who made America what it is today? Was it the courage and perseverance of man alone? No. The women had their share."

"Women have given the costliest hostages to the battle of life. I charge you, men of Ohio, to give women the power to protect their loved ones."

Miss Martha Flurshutz, known to Newark for her talents as a violinist, very delightfully entertained with a violin number.

Nation-Wide Prohibition.

"The Question of the Century" was discussed by Contestant No. 5. "The question of the century is the question of all economics. The solution of the question is nationwide Prohibition." Heavy applause greeted this sentiment.

Judges Make Award.

The judges on the contest made their announcement of the decisions. Mrs. Richards made the award of the diamond medal, but prefaced the bestowal by telling her experience in the education of foreigners in voting. "I feel sure I enjoyed the fine

GIRLS! GIRLS! YOU MUST TRY THIS! DOUBLES BEAUTY OF YOUR HAIR

Immediate? Yes! Certain? That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Danderine from any drug store or toilet counter and just try it.

Heckler Heckled.

Once in a while the heckler is heckled, as illustrated in a suffrage street meeting in a small central Ohio town. The speaker, Miss Elizabeth Schaus of Toledo, was explaining that women, children and idiots form the disfranchised class.

"You ought to be home washing dishes," broke in a gruff masculine voice.

"Are you sure all the idiots are disfranchised?" called another voice before Miss Schaus could reply. Then the crowd laughed.

Proposed Amendments to Constitution

The above is the form of the amendments of as decided upon by the secretary of state. The proposed amendments will be on a ballot by these lives and in the order shown in the sample ballot, with the titles as here given. The order of the proposals on the ballot was determined by the order in which the initiated petitions were filed.

BEST STORIES OF THE BIG WAR; INCIDENTS OUT OF THE ORDINARY

Picturesque and Dramatic Scenes on Europe's Battlefields.

Humorous Side Lights on Great Struggles Found in the News.

MANY a paragraph in the war news from abroad is a story in itself, telling of dauntless courage in battle, and many a humorous incident relieves the grim picture of the awful conflict.

"The most romantic, dramatic and piquant episode that modern war can show," says a naval lieutenant in describing an episode in the Heligoland fight. His letter reads as follows:

"The Defender, having sunk an enemy, lowered a whaler to pick up her swimming survivors. Before the whaler got back an enemy's cruiser came up and chased the Defender, and thus she abandoned her whaler.

"Imagine their feelings—alone in an open boat without food, twenty-five miles from the nearest land and that land the enemy's fortress, with nothing but fog and foes around them!

"Suddenly a swirl alongside and up, if you please, pops his Britannic majesty's submarine E-4, opens his conning tower, takes them all on board, shuts up again, dives and brings them home 250 miles!"

Small Boy Saves Family.

Theodore Taperzer, nine years old, of Philadelphia arrived at the offices of the American relief committee in London in charge of a Hungarian widow and her six children, whom he had brought all the way from Budapest.

From the Hungarian capital this boy had acted as guide and interpreter of the fatherless family.

Taperzer, who had been visiting relatives in Hungary, started to come out alone. At the railroad station in Budapest he met a family whose father, now dead, had been a naturalized American citizen. He took the Hungarian mother and her children under his care. On his arrival in London the boy drew a draft on his father in Philadelphia, which was promptly honored by the relief committee. He then acted as interpreter for the widow while she told her story and secured aid from the committee, after which he attended to the securing of steamship passage for his charges.

Feat of Lone Swordsman.

George Andre, France's foremost all around athlete, has been decorated with the military medal and promoted to be a sergeant, according to the Official Gazette, for a great feat of gallantry.

Andre, who holds the hundred meters world's record, while fighting in Lorraine with a company was surrounded by a large German detachment. The athlete, sweeping his heavy sword around his head like a fan, slew many Germans who were gathered around the standard.

He captured the standard and regained the French lines at his sprinter's gait under a hail of bullets.

Twenty Against 200.

La Liberte of Paris relates an incident on the battlefield at Compiègne in which a French lieutenant and nineteen cuirassiers attacked 200 dragoons of the German imperial guard and dashed right through them. They continued the fight in the streets of Remy and finally reached Paris after a series of hairbreadth escapes. Three of the nineteen were killed, and five were made prisoners. The others passed through the German lines in disguise.

The party had dismounted at a farm outside Remy at 10 o'clock at night when they were cut off by a squadron of the imperial guard. The lieutenant consulted his men, and all agreed to try to break through the enemy. The guard gave way before their impetuous cries, and the fight was continued in the streets of Remy, where thirty of the enemy were slain.

Escaped in Disguise.

Unfortunately the little band got separated. One entered a house and concealed himself behind a pile of wood. Another, after dismounting and killing three of the opponents, jumped over a garden wall and hid. The others got into other houses.

In all cases the fugitives put on civilian clothes and remained hidden for two days while the Germans kept searching for them. The lieutenant was found in a marsh with two ribs broken and his shoulder out of joint. He was taken into a factory and was dressed as an overseer, and eventually, with the help of safe conduct, the whole eleven passed through the enemy's line and got to Paris.

"Snowstorm of Shells."

"It was a snowstorm of shells," one soldier said of a recent engagement. "We went forward, however. A shell fell a few paces from me and threw up a great column of earth, which covered me, getting into my eyes and mouth. Then we came under the machine guns. This was a really terrible experience, and to be in a machine gun was a fearful thing. The dead and wound-

ed lay all about, and mixed with them were wounded horses which struggled and screamed in agony. But in spite of all we held on. I do not think we were afraid at all.

Bravery Under Fire.

In the orders of today made public at Bordeaux numerous cases of bravery are cited.

Private Phillips of the Second battalion of riflemen during the battle ran out under fire to his captain, who was mortally wounded, and brought him in. Private Phillips went eight times to the firing line under violent shelling to give water to the wounded, and he also assisted his command in rallying riflemen dispersed by the enemy's fire.

Of all the wounded patients the best, say the doctors in the military hospitals in Paris, are the Turks. There is no limit to the pain they can endure.

Spartan Women.

Among the victims of the battle of Gumbinnen were the two grandsons of the famous Russian journalist, Katkov. It is related that when Mme. Katkov was told her sons had fallen her first words were:

"Have we won the battle?"

Told yes, she said:

"Then I don't regret my sons' death, since they were useful to their country."

Ignaz Reising and his wife, Sophie Reising, peasants residing in Geiselbach, Bavaria, sent their six sons and three sons-in-law into the war. When the soldiers went out somebody asked their mother why she did not cry like the other women present. "I wait till I have real cause for that," she answered.

Mrs. Vanderbilt Washes Dishes.

A caller at the American Red Cross hospital in Paris found Mrs. W. K. Vanderbilt washing dishes in the scullery. No work is too trivial for the society leader, Paris reports, and her name is blessed in the Red Cross world.

A wounded Prussian officer was taken to a Petrograd hospital, where a nurse carefully dressed his wounds. The following day he ascertained that the nurse was none other than the grand duchess Olga Alexandrovna, the czar's sister.

It is reported from Kiev that Princess Helena Georgievna, duchess of Meuchtenburg, and Princess Marina Petrovna have entered the hospitals at Pokrovsky convent at Kiev and started work among the wounded.

Tried to Eat Boots.

Scores of wounded Germans are arriving at Dieppe from Seals. Many of them were a week in the field without food. One poor fellow said they had eaten grass and even attempted to eat their straps and boots. They had no emergency rations and were nearly mad with thirst.

Oddities in the War News.

The Austrians report that Russians have done great execution with machine guns mounted in trees, which is a novelty in the style of mounting guns.

Two Americans arrived at Ostend battered and haggard, but wherever they met Germans the waving of the big American passport secured them politeness, they declared.

At Sotteghem they came upon some German officers in a wayside tavern. A lieutenant called for a song in English. One of the Americans obliged with "You Made Me Love You. I Didn't Want to Do It."

The lieutenant then said, "If you come from Brussels you must be hungry."

The officer disappeared and returned with arms laden with ten pounds of butter and a hundred eggs.

The United States diplomatic service, now a sort of handy man for all nations in Europe, has been asked by a circus agency to find "Teddy Bears," a Briton, in Germany. If the fact he is eight feet tall and lame in the left leg does not aid in finding him, he is expected to be a little will, for he is one of the most prestigious enters in Europe, and his find will aid his country by reducing Germany's food supply.

Germans Sob; French Stoics.

There is a marked difference, wholly psychological, between the German and the French. The latter are constantly crying, and Bordeaux, writes a correspondent.

Physical difference between the being called French and the being called German is a nearly cot—the has torn the German cruelly than it has.

A German prisoner, merrily from nervous fore the popular under of the charade is wholly reversed.

You Smoke a "Better" Tobacco —Why Not Smoke The Best?

THE tobacco you now smoke you consider "better tobacco than you ever smoked before." Naturally, you kept trying until you found a "better" one.

But it stands to reason that since there is a difference in tobaccos, you may be missing still greater pleasure in a still better smoke—in the BEST smoke, in fact.

Tuxedo is the best smoke because no better tobacco leaf grows, and no process of treating tobacco leaf equals the original "Tuxedo Process."

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

We know that Tuxedo is made of the BEST tobacco—rich, mellow, perfectly aged Kentucky Burley. None better can be bought, because none better is grown.

It is treated by the famous original "Tuxedo Process" for removing the sting and bite of the natural vegetable oils.

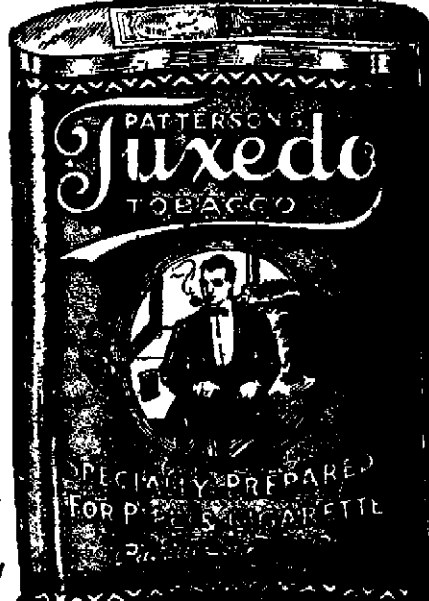

Tuxedo was born in 1904. Its first imitator appeared two years later. Since then a host of imitations have sprung up.

No other tobacco can give the unique pleasure of Tuxedo because no other maker has yet been able to equal the Tuxedo quality.

CLOGGED NOSTRILS AND HEAD OPEN AT ONCE--END CATARRH

Instantly Clears Air Passages; You Breathe Freely, Nasty Discharges Stop, Head Colds and Dull Headache Vanish.

Get a small bottle anyway. Just try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely, dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages, stops nasty discharges and relieves all immediately.

Don't lay awake tonight struggling or lie all night with head stuffed, nostrils closed, hawking and blowing. Catarrh, cold, with its running nose, foul mucus dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith just once in "Ely's Cream Balm." Your cold or catarrh will surely disappear.

Congressman Ashbrook.

The recent Democratic primary held throughout the Seventeenth congressional district attests the popularity of Congressman William A. Ashbrook. The voters certainly placed their stamp of approval on his candidacy and their desire to have him returned to Washington where he has been an active worker in behalf of his constituents.

Mr. Ashbrook is recognized as one of the leaders at the national capital, his knowledge of affairs political winning him the friendship of the representatives of other states and their support of the measures he has advocated. His judgment is relied upon implicitly by the older men as well as the new, and he has been accorded recognition in all the caucus actions of his party.

The old soldiers are unanimous in their desire to have Mr. Ashbrook represent them from this district. In fact he is known to almost every man who wore the blue all over the state and his friendship for the men who fought under the Stars and Stripes has been demonstrated more than once. So well has he been known and recognized as the old soldier's friend that from many other states he has been consulted by them for advice and assistance in pension legislation.

The whole congressional course of the popular representative of the Seventeenth congressional district has been guided by a firm desire to aid humanity. His attitude has been that of "one of the people" trying to serve the "rest of the people"—the militant spirit of Democracy that is going to return him to legislative halls for further victories and further benefits for this district.

In an enlightening official statement State Auditor Donahay shows that Mr. Willis has been copiously misquoting figures in comparison of state administrations. He offers figures for 25 years to show that Ohio now enjoys the lowest tax rate and the greatest cash surplus in history.

Would Standpatters Repeal Great Humanitarian Laws To Save a Few Dollars?

Licking County Able to Pay Its Share to Support the Splendid Measures Enacted and at the Same Time Enjoy a Reduced Rate of Taxation.

The cost of appraising personal property alone for the years 1912 and 1914 according to the figures prepared by the American-Tribune, is as follows: 1914, \$8,161.89; 1912, \$8,065.61, or an increase of \$96.28.

According to these figures the appointive assessors of Licking county appraised both the personal property and real estate in 1914 for \$7.00 less increase than it cost the elected assessors of the year 1912 and 1913 to appraise the personal property alone; and the increase of \$3,269.296 for the year 1912 was made in a large part by the Democratic Auditor who increased four of our largest corporations in the city of Newark more than \$2,000,000, leaving an increase for the year 1912 of only \$1,269.296 after deducting this large addition made to the duplicate county auditor. Moreover a very large part of the increase of \$1,474.159 made in 1913 as well as the previous year, is directly attributable to his same Democratic Auditor who under Section 5405 G. C. ascertains the value of all corporations other than public utilities. A close inspection of the assessors' books for the years 1912 and 1913 will reveal the facts that in neither of these years did the elective assessors increase the duplicate for the whole county \$1,000,000, or about the same increase made by the six appointive assessors in the City of Newark alone for the year 1914. The increase made by the appointive assessors in the year 1914 was greater than the total increase made by the elective assessors for the two preceding years of 1912 and 1913. Furthermore, the city auditor's office and the commissioner's reports will reveal the fact that the cost of appraising the real and personal property of Licking county for the year 1914, including the salaries of the district assessor, members of the board of complaints, all assessors, clerks and office supplies was \$13,000.

The last time Licking county's real and personal property was appraised the same year was in 1910 and it cost \$28,417 being \$15,417 more than it cost in 1914. It is true that in the majority of cases, especially in the City of Newark the old valuations of 1913 were accepted as the new valuations in 1914, for the reason that the assessors were all charged by the District Assessor before starting on their duties that the real estate in Licking county was on the inflated practically at its true value in money, and in appraising the same this year to make only such changes as seemed necessary to eliminate the glaring inequalities; or it was not the owners of real estate that were delinquent in the matter of paying their just share of taxes, but the tax-dodging owners of tangible personal property. The assessors carried out this order, and lag up the enormous sum of \$2,091.60 of hitherto hidden intangible personal property, paying the entire cost of the 1914 appraisement with a surplus of over \$4,000 to apply on next year's appraisement. Every element of the cost of the 1914 appraisement—preparing the assessors' books with a description of every item of real estate in the county, also a duplicate card for every parcel of the same, recording the valuations in the county triplicate printing and mailing out over four changes made in the real estate of the county to the owners thereon, and every element of cost that entered into the 1914 appraisement

except that the assessors did not tramp over and measure the real estate to the same extent as was done in 1910, nor would it pay the taxpayers next year or in any future year to go to the enormous expense of repeating the expensive appraisement of 1910, as under the Warner law the real estate must be appraised every year, and with the real estate valuation of the various townships and wards substantially correct in their aggregate valuations, the expense to the taxpayers should be limited to equalization to meet any new conditions that may appear from year to year. The fact remains and cannot be successfully denied that the appraisement this year did not cost the honest taxpayers one cent, but the cost was paid by the tax-dodging element of society. And the honest taxpayers of this county will pay over \$61,000 (instead of \$39,788.70 admitted by the American-Tribune) less taxes this year than last year. If this is a fair example of the workings of a Cox machine the people can afford a new more; and notwithstanding the deceptive figures of the American-Tribune, the Advocate's tax table of saving to the people of Licking county as published Oct. 13, is correct and so of the taxpayers of Licking county outside the City of Newark will pay less taxes in December 1914 and June 1915 than they paid in Dec. 1913 and June 1914, and the auditor's duplicate and tax sheet will prove it.

The people might get confused by false statements and deceptive figures; they might be led to believe that the great humanitarian laws passed by the Cox administration, viz: Mothers' pensions which permits the mother to keep her children under the parental roof, rather than under the infirmary roof; blind pensions which give a little light to heavy hearts; tuberculosis aid, which gives to the unfortunate human beings a ray of hope almost divine; teachers' aid by virtue of the Workmen's Compensation Act, which places them on a par with the rest of the nation's toilers in case of injury, would consume the extra revenue raised this year from the tax-dodging element of society and the honest taxpayer pay more taxes rather than less. But remember the cost of appraisement and the extra cost made necessary by reason of all these human laws will be met by reduced levies and reduced taxes paid by the honest taxpayers in 68 out of 78 taxing districts in Licking county.

Would the American-Tribune repeal the law giving aid to Mothers for the care of their helpless children?

Would the American-Tribune frown upon an honest effort to stamp out the great white plague and aid those who are suffering from tuberculosis?

Would the American-Tribune repeal the splendid Workmen's Compensation law?

Is the American-Tribune so foolish as to advocate the repeal of these great humanitarian laws especially when Licking county can pay its share of the tax burden to maintain them and at the same time enjoy a reduced tax rate?

There was a big steamship on the Great Lakes, had a capacity for 2,000 tons of cats.

The Republican State Committee has issued a booklet sponsored by the "True Democracy" league, with pictures showing office buildings in which state departments are housed, with the statement that before Cox came into office they were all in the Capitol building. As a matter of fact the overflow began ten years ago, and Chairman E. A. Crawford, of the league, himself leased the old postoffice building while he was Public Printer, the state inspectors having condemned the old building. It is charged that the new quarters were leased from a brewery, and Crawford ought to know, since he made the lease. In his Enquirer letter, Hon. James W. Fathkner, characteristically brands the charge about the overflow of commissions under Cox as a "whopper."

Frank B. Willis has not yet denied that he took orders from Standard Oil and the trusts while in the Ohio legislature. The Archbold letters which show why he smothered his own resolution for trust investigation have been decidedly illuminating.

William Jennings Bryan came back to Ohio yesterday to tell the voters that "A vote for Willis is a slap at Wilson," and to repeat his own personal endorsement of Governor Cox.

Prosperity.

The predicted prosperity for America is arriving. A. H. McQuillen of the Business Equipment Journal wired to 300 trade paper editors in convention at Chicago yesterday: "The war has simply thrust prosperity upon us."

Charles Gates Dawes, president of the Central Trust company of Illinois, and brother of Beman G. Dawes, formerly of Newark, makes this statement:

"THE UNITED STATES IS AT THE BEGINNING OF ITS GREAT-EST ERA OF PROSPERITY!"

RETIRED.

The man who leads an active life grows weary of the business strife, which long since lost its zest; he yearns to quit the beastly grind, to leave all trafficking behind, and have some ease and rest. "Some day, when I have made my pile," he murmurs, with a longing smile, "I'll sell this blighted old store, and put in my declining days at checker games, with other jays, and labor never more." That time arrives; his store he sells, then for a month he's wearing boots, a gladsome coat, and when an idle month is spent, you will not find a sadder gent than he, from sea to sea. The time hangs heavy on his hands, and slowly flow the bourgeois sands as grease in winter time; each morn he greets with new despair, he finds that leisure is a snare, and idleness a crime. He hangs around the busy mart with weary eyes and aching heart, and envies those who hump; they're finding life serene and glad, as they pursue the festive sea—and he is at the dump. In seven months he ages more than in twice seven years before; the rest that he desired, but makes him wearier, by much: "Oh, what a dump," he sighs in Dutch. "I was when I retired!" The wise man never means to quit, while he is competent and fit, and standing on his feet; the rest that comes 'twixt sun and sun, when all your workday tasks are done—that rest alone is sweet.

Spirit of the Press

A winter campaign is planned for the millions of blankets and the 50,000 camp stoves ordered in this country give evidence of that. Lord Curzon warns his countrymen that more than one Christmas will pass before "Johnny comes marching home." The members of the governments concerned do not take light views of the struggle. Lord Kitchener explained on taking office that he took it for three years. (OH) weather is coming, and probably epidemic, and possibly famine.—Philadelphia Record.

Paterson's Example.
Paterson, N. J., is a city that has been made famous by Anarchism, by floods, and by fire. It has balanced this unfortunate record by organizing and opening an industrial exhibition, which is peculiarly timely at this juncture. The Exposition opened in that city on Monday has for its chief feature the greatest show of silks ever displayed in this country. The silks are all "made in America." Gowns are exhibited whose material is the product of home factories, and in style and attractiveness can challenge comparison with the productions of Paris. This is an example well worth following. It is a precedent in industrial faith and activity which will surely gain its reward. Some business elements seem to consider it the part of neutrality to keep in retirement, hope for the best and fear the worst. Paterson strikes the note of making the most of our opportunities, advertising what our home industries can do, and attracting the trade of other neutral nations. It is not a hazzardous prediction that the aggressiveness displayed in this effort will develop a prosperity that will force other industries to follow the good example.—Pittsburg Dispatch.

In Four Straight.
For the first time since the post-season interleague series was established the national baseball championship goes to the winner in four straight games. It is a record made the more remarkable by the fact that the team generally considered in advance the certain victor loses the four games in a row. The phenomenal success of the Boston Nationals is likely to remain one of the marvels of baseball. Considered during a large part of the season to be a second-rate team in a league which has repeatedly failed to show winning form in its contests with the rival organization, these Boston players by sheer grit and daring captured the championship of the Nationals and then, with scarcely time to catch their breath, began the world's series against the pride of the Americans—the veteran Philadelphia Athletics. And it takes only four games, the minimum required under the rules, to demonstrate Boston's superiority over her veteran foe.—Cleveland Plain Dealer.

Have You Heard This Call?
A great wave of Christian sympathy is flowing out from Christian America to suffering Europe. This is a time when all classes have a duty to perform in relieving such distress as the world has never seen till now. It would be difficult, indeed, to imagine any one so indifferent to suffering or so ungrateful for God's blessings and mercies to our own land, as to turn a deaf ear to the call that is now coming to us across the Atlantic. Every mail brings increasing numbers of responses to our appeal for the Silent Sufferers, the widows and orphans of Europe's war. A large majority of the letters contain not only gifts for the Relief Fund, but earnest prayers for the sufferers and for the restoration of peace.—The Christian Herald.

GRANT RAILROADS RIGHT TO INCREASE FREIGHT RATES

(Associated Press Telegram)

Washington, Oct. 15.—The interstate commerce commission today held to be lawful proposed increases in the proposed freight rates on grain and grain products from Kansas City, Mo., to Port Arthur, for export applicable to traffic originating at various points in Kansas and Nebraska. The railroads are required, however, to cancel the tariffs under suspension and substitute others omitting certain features objected to by the commission.

CARRANZA HAS NOT RESIGNED; RUMOR IS DENIED

(Associated Press Telegram)

Washington, Oct. 15.—Acting Secretary Lansing said today that state department had no confirmation of published reports that the resignation of General Carranza had been presented to or accepted by the Mexican convention at Aguas Calientes.

"There is no doubt, according to state department reports, that the question of General Carranza's retirement will be the most important subject discussed by the convention, though reports of his resignation are premature."

TO SAVE EYES

Is the Object of This Free Prescription Try It If Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to draw their attention to it. They would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and often get glasses that they do not need, or glasses that they used two or three months, do their eyes more injury than good. Here is a simple prescription that every one should use:

5 grains Optima (1 tablet).
2 ounces Water.

Use three or four times a day to bathe the eyes. This prescription and the simple Optima system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation. Weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and contains no ingredient which would injure the most delicate eye of an infant or the aged. T. J. Evans or any druggist can fill this prescription free of charge. It is good and now for once what real eye comfort is.

SHADE TREES ADD VALUE

According to the bulletin of the Massachusetts Forestry association, to determine the value of shade trees on streets, the advice of practical real estate men was sought. A large number of these men were asked this question: "How much, in your judgment, do full-grown shade trees along the street improve the value of the adjoining land for house lots?" The majority of answers ranged from 10 to 50 per cent while some went so far as to state that a house lot would be worth 100 per cent more if full-grown shade trees were standing in front of it. A fair average of these answers falls between 25 and 40 per cent.

Expert tree appraisers say that a shade tree in good condition and well placed is worth \$1 per square inch of cross-section measured at breast height. At that rate a tree one foot in diameter is worth \$113, while a tree two feet in diameter is worth \$452. For the sake of illustration suppose that we take a good-sized house lot, 50x100 feet, or 5000 square feet, worth 25 cents a foot. The land value is \$1250. If the trees are spared 60 feet apart on the street there would be one tree in front of the property. The tree is two feet in diameter and worth \$452, which would increase the value of the lot 36 per cent.

The more trouble some people have, the more they want to borrow. Many a fellow couldn't put up a good shirt in front, even with a boiled shirt on.

ITALY'S POSITION IS EXPLAINED BY AMBASSADOR

(Associated Press Telegram)

Washington, Oct. 15.—The Italian government's policy in regard to the European war was made plain by Ambassador Macchi di Cellere today when he stated the Italy would not take up arms unless she was forced to do so over and above which threatened her own safety.

"Although officially a member of the triple alliance, and bound by this agreement with Germany and Austria-Hungary for purposes of mutual protection, the ambassador declared that his country had no intention of endangering its neutrality by yielding to the influence of any outside powers to take sides in the conflict."

The ambassador explained that the reported troop movements in his country, were in no way in the nature of offense.

NEW WAR MINISTER OF STATE CAUSES AUSTRIAN FEARS.

(Associated Press Telegram)

Rome, Via Paris Oct. 15.—The Messagero today published a telegram from Vienna which says that the appointment of General Zupelli as Italian minister of war is causing some apprehension in the Austrian capital, the war being entertained that General Zupelli, who comes from Capo d'Istria, Austria-Hungary, will favor the joining of the province of Istria to Italy. It is rumored here that a special court courier has left Vienna for Rome, with an autograph letter from Emperor Francis Joseph on the subject.

Makes Face Young—Tightens Love Ties.

A fretful expression, a wrinkled face and a faded complexion, do more to drive the male members from home than is commonly supposed. It was one of my greatest difficulties to appear smiling, fresh and elegant when my dear ones were with me. But I have changed my mental attitude and now it is second nature to look cheerful. Due partly to this, partly to a remarkable treatment recommended by a friend, my appearance has so improved I look fifteen years younger than before.

A simple face lotion made by dissolving an ounce of powdered roxaline in a half pint witch hazel, proved a wonderful wrinkle-chaser. I still use this occasionally. To renovate my complexion I purchased an ounce of ordinary mercolized wax at my drugists and before using this up, a marvelous transformation had taken place. It was like moving an unsightly mask, revealing a new face, a youthful complexion of distinctive delicacy, clear white and velvety. I merely applied the wax like cold cream before retiring, washing it off morning, ten days treatment sufficed. "Aurilia" in advertisement.

discussions, as did the audience."

The medal was awarded to Constant No. 5, Wayne Nealy of Marion. The other contestants were, Eva Parsons of Crestline; Josephine Schoene, of Columbus; Herbert Scott, of Warren; LeAnna Wright, of Wilmington; Ella Burr, of Marion.

With the award of the medal the meeting adjourned.

Convention Notes.

The Frances Willard Chapter of Mt. Vernon made Mrs. Carrie Tilton, a life member of the W. C. T. U.

Winona county made Mrs. Lyda Garside, a life member.

Mrs. M. M. Fowler of Westerville was also made a life member.

The daughter of Mrs. William Freshwater, of Delaware, sent \$10.00 to the convention to have her mother's name placed on the "Inn Memorial" roll.

Miss Quinby of Columbus, presented the union with \$10.00 making herself a life member of the union.

The newly acquired banners were noted as being placed at the seats of the delegations to whom they were awarded.

The big pipe organ, in the church is out of repair which has proved a big inconvenience to those having musical numbers on the program.

Just before the program opened the Marion county delegation arose to their feet and enthusiastically gave the county rally cry.

Miss H. Anna Quinby of Columbus, is attending the convention. Mrs. Quinby organized 350 towns of Ohio for temperance work when she was employed by the W. C. T. U. in the capacity of state organizer. She was at one time head of the suffrage department of the Ohio W. C. T. U. and 10 years ago was awarded a diamond stick pin and gold medal for securing 36,000 signatures to a petition started by the W. C. T. U. for woman suffrage. Miss Quinby personally secured 13,000 pledges from boys to abstain from cigaret smoking.

At noon and following the afternoon meetings on the days of the convention Mrs. Mary Bowers, secretary of Y. P. E., can be found in the conference room of the Sunday school room, where she will gladly give any help and answer all questions.

Dinner and supper are being served today at the First M. E. and Fifth Street Baptist, and the Second Presbyterian churches.

A telegram of greeting was read to the convention from Marietta. It was from an union Evangelist and W. C. T. U. meeting of an assemblage of 600. The message extended greetings and bespoke victory for the liquor fight.

Franklin county advertised the loss of a necklace belonging to one of the delegates. It bore a pendant with the monogram "M. C. H." and a half carat diamond. The pendant is to be returned to the Franklin county president.

A meeting of the county presidents was called for one o'clock in the Sunday school room.

Representatives of the Queen and Crescent railroad were present soliciting the patronage of delegates attending the national convention, which will be held at Atlanta, Ga.

An invitation was extended to the Y. W. C. A. and Y. M. C. A. secretaries and the members of the associations to join the big parade Thursday afternoon.

The state convention has a larger voting strength than the national convention.

A resolution was introduced by Mrs. Anna Sheldon, and adopted, as follows: That no county president has the right to disband any union without notifying the state president, and that no local president has the right to disband, before notifying the county president; that all moneys from local unions disbanded are to go to the county treasurer and all county funds to the state treasurer of the W. C. T. U. or Y. P. E. This is to prevent the money being devoted to any other purpose than that of the W. C. T. U.

As the delegates assembled for the morning session, Mrs. Florence D. Richards brought to the notice of the convention a number of small novelties, which were up for purchase and which advertise Woman's Suffrage. This came up under the caption "miscellaneous business."

Rev. Mr. Hawke of Granville, pastor of the Methodist church, visited the convention Thursday and was introduced to the assemblage. Rev. Hawke gave a short talk to the convention.

Rev. Mr. White of the U. B. church was presented to the assemblage and he gave a recitation depicting a "southern turkey on woman's rights." The bit of comedy was heartily applauded.

Summit county presented Mrs. Jatte, just re-elected treasurer with a beautiful cluster of white carnations. Mrs. Jatte is a member of the Summit county union.

Rev. L. C. Sparks pastor of the First M. E. church was introduced to the convention and gave a short talk.

Mrs. Hattie Z. Evans, president of Oak Hill union, Jackson county was made a life member of the W. C. T. U.

The superintendent of health and efficiency filed a protest against the use of the handkerchief in the giving of the chautauqua salute. It was made a motion and carried and henceforth the handkerchief will be barred in the salute. The superintendent is Mrs. Frances L. Lester of Mansfield, and she declared the practice unsanitary.

A report was made to the convention that the flower committee of the convention has sent to Mayor R. C. Hughes, of Newark, who is ill at his home, a cluster of flowers. His acknowledgment and expression of appreciation were brought to the convention.

The following is the order of exercises for Friday:

SHREDDED WHEAT

It is largely through the loving favor of healthy boys and girls that Shredded Wheat is kept at the top of all breakfast foods. Being ready-cooked and ready-to-serve it is a boon to the busy housewife and mother, enabling her to prepare "in a jiffy" a nourishing, wholesome, appetizing meal without kitchen worry or kitchen drudgery.

Always heat the Biscuit in oven to restore crispness then pour over it milk or cream, adding salt or sugar to suit the taste. Deliciously nourishing for any meal in combination with berries or other fruits of any kind. Try toasted Trixant, the Shredded Wheat Wafer, for luncheon with butter, cheese or marmalade.

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup. Really and Truly Made at Home.

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2 1/2 ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish.

Pour the 2 1/2 ounces of Pinex (20 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you a full pint—a family supply—a most effective remedy, at a saving of 52. A day's use will usually overcome a hard cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it lowers the dry, hoarse or tight cough and heals the inflamed membrane in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine eucalypti extract, rich in glycerol, which is so healing to the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money refunded.

CONVENTION OF LICKING COUNTY ENDEAVOR UNION

The Licking County Christian Endeavor convention opened today in the East Main Street United Brethren church, that edifice hardly being large enough to accommodate the delegates and the visitors. The convention will close with the evening session to be held Friday.

The church was attractively decorated for the occasion and after registration immediately after the noon hour a song service was held followed by devotional, the Rev. C. G. Hallett officiating.

The address of welcome was delivered by Rev. A. B. Cox, pastor of the church, who extended a hearty greeting to all. Rev. Cox is a pleasing speaker and he assured the delegates that they were thrice welcome, not only to the city and church, but to their homes as well, and that the convention of Endeavorers was bound to result in untold good. The response was by Rev. Mr. Sutton, of Union, who thanked the local members for their warm greeting and Rev. Cox for his cheery welcome.

A workers' conference was held during the afternoon, and was in charge of Ohio's field secretary, C. C. Hamilton. This was followed by a social and get-acquainted hour after which adjournment was had until the evening session at which

VIVID STORIES OF SUBMARINE ONSET

Told by Survivors of Lost British Cruisers.

SPLENDID HEROISM SHOWN.

Men Fighting For Their Lives in the Sea After Torpedoes' Deadly Work Shouted Cheering Messages to One Another—"Germans Came Right Up Under Noses of Our Guns."

Survivors tell graphic stories of the destruction of the British armored cruisers Aboukir, Hogue and Cressy. Describing the sinking of the Cressy Chief Gunner Dougherty said:

"Suddenly I heard a great crash and saw the Aboukir heeling over and going down rapidly. We came to the conclusion that she had been struck by a torpedo, and kept a sharp lookout for these craft while steaming to the assistance of the Aboukir."

"The Hogue was also closing up toward the sinking ship with the object of assisting the crew, who were dropping into the water, when we heard a second crash. As the Hogue began to settle we knew that she also had been torpedoed."

"As we drew near, some one shouted to me, 'Look out, sir, there's a submarine on our port beam!'"

"She was about 400 yards away. I took careful aim at her and she disappeared. Up she came again so I fired my third shot and smashed in the top of the conning tower."

Let Out a Great Shout of Joy.

"The men standing by shouted, 'She's hit, sir!' and then they let out a great cheer as the submarine sank, and while she was going down two German sailors floated up from her, both swimming hard."

"After that we shot at a trawler which was 1,000 yards away and evidently a German boat in disguise, directing operations. We hit her with the first shot and set her on fire."

"By this time we already had been struck by one torpedo, but the damage was not in a vital spot and we should have kept afloat all right. We saw another submarine on our starboard side and made a desperate effort to get her, but failed, and her torpedo got home in our engine room."

"Then the Cressy began to turn over, and this I will say for the men," said Mr. Dougherty proudly, "they acted like British sailors, and those who died died as a Briton should."

"Our captain was on the bridge, and in these critical minutes he spoke some words of advice to the crew. 'Keep cool, my lads, keep cool,' he said in a steady voice. 'Pick up a spar, my lads, and put it under your arm. That'll help you to keep afloat until the destroyers pick you up.'"

Water Thick With Drowning Men.

"They were discharging torpedoes at us while the water was thick with drowning men. When I dropped into the sea, clinging to a bit of wood, there were men all around me. We shouted cheering messages to one another. I was afloat for four hours."

Says a Menden, Holland, dispatch to the London Daily Chronicle:

"The men of the Aboukir afloat in the water hoped for everything from the arrival of her sister cruisers, and all survivors agree that when these also sank many gave up the struggle for life and went down. An officer told me that when swimming, after having lost his jacket in the grip of a drowning man, his chief thought was that the Germans had succeeded in sinking only three comparatively obsolete cruisers which shortly would have been scrapped anyway."

"Twenty-four men were saved on a target which floated off the Hogue's deck. The men were gathered on it for four hours waist deep in water."

"The daring of those Germans was amazing. They must have seen us a long way off. We could not see them, and they came right up under the noses of our guns."

MEXICO'S NEW REVOLUTION.

Villa's Plans For March on Mexico City to Oust Carranza.

Now that General Villa has definitely broken with General Carranza and announced that he will fight to the last Torreon becomes the center of interest in the new war in Mexico. It is at Torreon that Villa expects the big battle, and he is preparing that city for a vigorous defense and a possible siege. All troops ordered to Sonora by Villa have been recalled and are being hurried to the south. All troops in Chihuahua City are being sent to Torreon, and every garrison in the north is being stripped of men to mobilize at Torreon the greatest army that Villa has put into the field. Villa has made plans for an immediate movement against Mexico City.

Villa holds all northern Mexico and in this position has advantages which will count seriously against Carranza. Villa will be able to control the rail communication with the United States.

Paris Women Far Outnumber Men.

The war census of Paris is complete. The population is now 1,977,014, a decline of 1,629,297 from normal figures. There are in Paris now 949,067 women, 585,493 men and 272,471 children, of whom 30,000 are under fifteen months old.

The paucity of streets with wooden blocks originates in Russia.

If a man can't say "No" don't place any faith in his "Yes."

A man isn't crazy over a girl very long after she gets crazy over him.

There may be a lot of heroes in the world, but no woman will admit that she is married to one of them.

The old-fashioned boy who used to get sewed up in his winter heavies every November now has a son who wears the tissue paper kind all year.

Any woman would rather attend a course of lectures on how to make home happy than stay at home and mend socks to gain her object.

There wouldn't be so many divorce cases if women folks would try to remember that keeping a man is a more important job than catching him.

Every woman knows that the reason other women are well dressed is because they go hungry and put every cent they have on their backs.

OPPORTUNITIES

Short Talks Full of Encouragement and Optimism.

(By JASON ROGERS.)

COURAGE IS CAPITAL.—Two high-grade haberdashers doing about the same volume of business in a large eastern city a few years ago noticed a decided falling off in the trade in expensive shirts and such. One closed in on his overhead expenses and proudly decided to—and put and is going broke whether he knows it or not.

The other man saw how things were heading and bought and put in a line of moderately priced goods and quality bargains and advertised. Trading on his previously established reputation on lines of absolute business integrity he is today doing a larger volume of business at greater profit than before.

This illustrates an argument for the "quick and the dead." The quick man has a heck of a lot of money and is making it. The dead man is broke and is looking for a job. The smart public that ability he can see at better quality than his competitor.

Up and at the better results. The man who is adding losing trade to do the everyone can make something out of it. Get busy, the dollars themselves.

KILL! KILL! KILL! EPITOMIZES WAR

First Hand Accounts Show Awfulness of Battle.

DAYS THAT DEFY IMAGINATION

Sights in Nations' Terrible Conflict Which Make the Blood Run Cold. "I Should Never Have Thought Men Could Stand It," Says One Soldier in Letter From the Front.

The horrors of war are brought home strikingly to the reader of the newspapers in these days of stress abroad by means of many a personal narrative as thrilling as any ever told by a master of fiction. These little stories recite deeds of dauntless courage and impress one with the correctness of General Sherman's famous definition of war.

"The statements of the wounded at Paris returning from the Aisne show the terrible nature of the fighting. All practically tell the same story," said one man.

"It began with heavy and accurate shell fire. There was a lunch interval. It stopped about 5:30 every day, and then in the night often came the charges. One night I couldn't count them. It was awful! Kill! Kill! Kill! And still they came on, shoving each other over on to us."

"There was no man but had his story of comrades shot on either side of him, of how they were smashed day after day, of the shriek of shells, of the perpetual groaning of the wounded as they lay in the wet trenches—seven days and nights of it and sometimes only an hour's sleep."

"Muddled to the eyes, wet, often blood caked, many were suffering from the curious aphasia produced by the continuous and terrible concussion of shells bursting. Some were dazed and speechless, some dazed, and yet splendid to relate, I saw on no face the terrible animal war look."

"It Was Horrible; It Was Ghastly."

The following epistle is from a German soldier of the Seventy-fourth Infantry regiment, Tenth corps, to his wife:

"I have just been living through days that defy imagination. I should never have thought men could stand it. Not a second has passed but my life has been in danger."

"It was horrible. It was ghastly. But I have been saved for you and for our happiness, and I take heart again, although I am still terribly unnerved. God grant that I may see you again soon and that this horror may soon be over."

"None of us can do any more. Human strength is at an end."

The correspondent of the London Daily Telegraph at Rheims sends this interesting paragraph:

"In the doorway still stands the crippled beggar who has sought aims there for many years. He maintained his post throughout the bombardment, and, like a statue, he stands, covered with dust, pebbles and glass. The man was unharmed. He was crippled in the war of 1870."

Spellbound at Hero's Act.

The heroic self sacrifice of a soldier named Tresignies of the Second regiment, chasseurs a pied, has just been related. The Belgians were exceedingly anxious to get across the Willebroeck canal at Pont Brule, but a bridge was raised against them on the other side and occupied by a strong force of Germans. Tresignies volunteered to swim across and try to lower the bridge. It meant certain death. Before he plunged in he wrote with a pencil on a scrap of paper the name and address of his wife and the simple words, "God will help and comfort you." The Germans were startled into admiration as he leaped into the stream and for a few moments held their fire; but, seeing what he was about to accomplish, they riddled him with bullets just as he lowered the bridge.

As it fell into place with a crash the Belgians rushed across with shouts of triumph. Tresignies' body was buried with military honors.

A big London department store announced recently that any unmarried male employee between twenty and thirty-five who did not enlist would be dismissed after Sept. 12.

Some of the elevator attendants now are girls. They wear blue uniforms of a material not unlike that of overalls and seem to operate the cars quite as efficiently as the men.

NEW WAR COST ESTIMATE.

Six Nations' Daily Expense \$38,000,000, Says German Expert.

Fourteen thousand million dollars is the yearly cost of the war for £28,250,154 per day to Germany, Austria, Belgium, France, Russia and England, according to the German statistical expert, Captain Max Henke.

Of this expense France and Germany, he estimates, each with 2,000,000 men in the field, must stand \$2,800,000,000 each, while Russia's share, with her 4,000,000 fighting men, will be \$3,400,000,000.

These figures would seem exaggerated if the actual cost of England's war in which not more than 600,000 British troops were actually engaged at one time was not known to have cost \$1,200,000,000 in less than three years, or \$400,000,000 a year.

New Corn Cure A Real Marvel

Guaranteed and Absolutely Painless.

A corn cure that is painless and that will really do the work has finally been discovered. Heretofore, the poor sufferer from corns has been pestered with "drawing" salves and plasters that swell the corns, and has had finally to gouge out the corn and inflict upon himself still greater pain. With Hall's Painless Corn Cure all pain ceases on the first application, and then finally the corn comes right off easily and painlessly. You don't have to dig it out and run the risk of drawing blood, making your corns still more sore or getting blood poison.

Hall's Painless Corn Cure is easier to use than any other; it takes a few seconds to apply it. It is guaranteed absolutely in every case. You must be satisfied, or back goes your money.

Lasts longer than several packages of any other corn treatment, and you are sure to get rid of corns and bunions. Sold at 25 cents a bottle at

TURN HAIR DARK WITH SAGE TEA

Grandma kept her locks dark, glossy and thick with a simple mixture of Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we won't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Weyth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Weyth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive, besides, prevents dandruff, itching scalp and falling hair. Agents Hall's Drug Store.

Spanish War Physician Dead.

Dr. Harry B. Heize, 52, a well

known physician of Findlay died on

Tuesday night. He was in General

Shafter's hospital corps in the Span-

ish American war and was known to

a number of the local Spanish veter-

ans.

To Direct Minstrel.

Prof. H. E. Stutz of Columbus,

who directed the Elk's minstrel in

this city two years ago, has been en-

gaged to direct an Elk minstrel for

the Upper Sandusky, O., lodge. It

will be given during the winter.

Forsythe Changes Location.

S. E. Forsythe, the well known

Studebaker automobile dealer has

moved from Fourth and Church Sts.

into the Auditorium Garage. Mr.

Forsythe has also taken the agency

for the Briscoe car and the new lo-

cation gives him more room for dis-

play.

Newark Horse Entered.

Messrs. Rollin Baird, Dr. J. T.

Lewis and Ollie Tucker left early

Thursday morning for Lancaster to

attend the fair and witness "Miss

Birchleaf" start in the 24 trot. This

horse is owned by William Fries of

the Welsh Hills and is in excellent

condition for the race.

Hay Ride Tonight.

Today's rain will have no terrors

for a crowd of a score of young peo-

ple who will enjoy a hay ride to the

Watkins farm near Granville. After

partaking of a fine fried chicken sup-

per a dance will be enjoyed in the

large barn, the decorations being

in keeping with the autumn sea-

son. Before leaving for home pump-

kin pie and cider will be enjoyed by

the visitors.

Howe Property Sold.

William Zentmyer, the West Main

street ice and coal dealer, has pur-

chased the Howe property on the

southeast corner of Sixth and West

Main street and will remove the old

house now facing West Main street,

to the rear of the lot where it will

be remodeled into a double house.

Mr. Zentmyer will then build a new

double house with all the modern

conveniences on the ground where

the old one stood.

At Lancaster Fair.

Squire Fletcher S. Scott is in Lan-

caster today where he is serving as a

judge on the big pumpkins at the

county fair. Squire Scott frankly ad-

mits that when a mere lad he was

known as the champion pumpkin

raiser in his vicinity but that he is

more capable of judging them when

made into a pie. He is also quite a

chicken fancier and will look them

over today in the poultry depart-

ment, which is said to be the best in

many years.

BAD COLD? TAKE CASCARETS FOR BOWELS TONIGHT

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or gaur, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

BRYAN BOOMS GOV. COX FOR PRESIDENCY

PREMIER OF WILSON ADMINISTRATION URGES HIS RE-ELECTION

Great Crowds Greet the Commoner in His Tour of Southwestern Ohio.

Dayton, Oct. 15. — Traversing southwestern Ohio, in the face of a downpour of rain, William Jennings Bryan, the commoner and the premier, to big crowds that greeted him at every stop yesterday, as they did six days ago in northwestern Ohio, appealed "primarily," he said, for an overwhelming endorsement by Ohio of the constructive and peace policies of Woodrow Wilson, by the election of a Democratic Congress.

As emphatically as last week he endorsed Governor Cox. He asked his re-election as a fit reward of what he had accomplished as governor and for the added prestige which would raise him to higher place. His hearers greeted this as a picture of the young and forceful governor sitting in time to come in the White House.

He pleaded again for the election of Timothy S. Hogan to the United States senate and for the election of the Democratic congressional candidates in the districts he visited. Charles E. Brookes, N. W. Cunningham and Congressman Warren Gard. But, as was not the case on the first tour, Secretary Bryan struck his heaviest blows in defense of the war tax. This was the new note in yesterday's series of Bryan speeches. Rapidly sketching the Wilson tariff, trust, currency and Mexican accomplishments, he said that now the Republicans were attacking only the war tax, declaring the theoretical result of protection was the prevention of importations.

Among others, he paid this compliment to President Wilson in these striking words:

"Wilson, he said, 'was the first president who laid the ax at the root of the trust tree. Taft and Roosevelt did not, he said, 'for they were leaning against the tree and couldn't afford to cut it down.'"

Of Governor Cox Secretary Bryan said:

"While I am coming into Ohio the pleasure of my coming is greatly enhanced by the fact that it gives me pleasure to say a word in behalf of a personal friend and a political friend who is your candidate for governor, James M. Cox. For 20 years and more I have been acquainted with the discussion of national questions and I have been interested in the growth of the men who could help to bear the burden of national politics, and as I have traveled throughout the country I have watched the appearance of men of promise, and long before you knew Governor Cox I knew him. I knew him as one of my loyal supporters back in the times when I needed friends and when some were afraid to be known as political friends of mine. I learned to know where his sympathies were and I was not surprised when he received his nomination for Congress."

"I expected him to make a good congressman and he lived up to my expectations. I was glad when he was nominated for governor. I expected him to make you a good governor and he lived up to my expectations. I heard him make a speech at Toledo a few months ago in which he reviewed the record of his administration, and I am prepared to say that you may search this country over and over and you will not find any governor who in two years has done more to deserve the confidence and endorsement of his people than Governor Cox has."

"I am interested in seeing him re-elected as a reward of a record that deserves endorsement. I am interested in seeing him re-elected because of the prestige it will give to him. He is now a prominent figure in national politics. He will be more prominent when he has had the prestige of an added term in the governorship."

"And I expect to live to see him rise higher and higher and hear more and more of the responsibilities of leadership in the nation. And I know that his sympathies and his efforts will be on the side of the great common people in the work that still lies before him."

BRYAN ENTERS

KENTUCKY TODAY. Lexington, Ky., Oct. 15.—William J. Bryan, secretary of state, entered Kentucky today for a two days' speaking tour in behalf of the Democratic candidates on the state and national tickets. He will speak here this afternoon and at Louisville tonight. Several short addresses will be made at several smaller towns enroute to Louisville.

ALLIANCE WITH RUSSIA WOULD BE WELCOMED

London, Oct. 15.—General Oba, the Japanese military attaché with the Times Petrograd correspondent "after an imperial audience at Tsarkoe-Selo gave a statement to the Bourne Gazette, frankly expressing his earnest wish to convert the Russo-Japanese entente into a formal alliance. Such an alliance, General Oba said, would be warmly welcomed by the Japanese government and people. General Oba said he believed the moment had arrived to conclude such an alliance and that M. Sazonoff, the Russian foreign minister, M. Iswolsky, Russian ambassador to France, and Baron Motono, Japanese ambassador to Russia, were doing their utmost to strengthen the bonds of friendship between Japan and Russia."

EASY WAY TO STOP HAIR FROM COMING OUT

A harmless home remedy, compounded principally from the powerful juice of the Pernambuco shrub, has been found highly effective in promptly checking the falling of hair from the scalp. Men and women whose hair is growing alarmingly thin and falling out badly every day should try it. It without fail, as they ingredients are perfectly harmless and very inexpensive and the whole thing can be prepared at home or by a druggist. Merely mix together in a glass bottle 2 oz. Laxona de Caribbe, 8 oz. Kava Kava and 1/2 drachm of Menthol Crystals. Shake well and allow to stand for an hour, when it is ready for use. The Laxona in the above is the pharmacological name of the Pernambuco juice, a direct and scientifically prepared for medicinal purposes. To stop the hair from coming out and to quickly start a new growth of new hair all over the scalp, rub this lotion briskly into the scalp with the finger tips or a medium stiff brush for about five minutes each night and morning. After three or four days use in this way you will not find a single hair or straggling hair falling out. The hair will grow again and you will find a thick growth of fine downy new hairs, which will grow with amazing rapidity. Advertisements.

APPEAL MADE FOR CLOTHING FOR CHILDREN

Real suffering is apparent among the women and children in the mining communities of Belmont county, according to an appeal received by Rev. B. M. O'Boylan of this city from Father Otto Von Lintel of Bridgeport and Father Roderic A. McEachen of Barton, Belmont county, priests who have been working among the miners families.

The destitution is the result of the closing down of the mines early in the summer when the operators and miners failed to reach an agreement as to the wage scale.

Many of the miners employed in this district are of foreign birth and speak little English. The priests are appealed to because the foreigners find that they speak many languages and these churchmen have taken up the burden of providing clothing for the suffering women and children.

Clothing sent to either of the priests whose address is given above, or to Father O'Boylan in Newark, or Supt. Wilson Hawkins of the local public schools, will be distributed among the needy.

Only a small proportion of the miners are Catholics but they seek the aid of the priests because the clergymen can speak the native tongue of most of the foreigners.

Berlin reports the occupation of Lille but declares that other than this there is nothing new to report on the western front.

According to despatches reaching London, typhus has shown itself among the German troops along the western front, and rumors of the outbreak of various other diseases are increasing. England is taking note on these reports by sending to the front three of her most important medical men as an advisory body, to co-operate with the regular medical staff in the prevention of epidemics.

A correspondent in Italy reports that the war fever in that country is abating even the most determined anti-Austrian now agreeing that no belligerent move should be made before next spring.

Turkey continues in a warlike mood and trouble already may have begun in the Black Sea although heavy firing has been heard, and where it is believed that the famous German cruisers Goeben and Breslau, which have been sold to Turkey, may have been engaging the Russian fleet.

Ostend is now virtually a deserted city, with its docks still crowded with terror-stricken refugees intent only on getting as far as possible from the scenes of suffering.

The repatriation of Belgian fugitives promises to become a serious problem both in England and Holland and these countries may call upon the United States to assist in this work.

Further detachments of Canadian troops are landing today.

Stationary steam oil and gas engine plants of the United States are producing about 20,000,000 horsepower.

PRIZE WINNERS TO TAKE TRIP TO WASHINGTON

Several Weeks Still Elapse Before Names of Successful Corn Boys Will Be Known.

ASSOCIATED PRESS TELEGRAM. Columbus, Oct. 15.—About 3,000 preliminary judging blanks from Ohio boys who participated in the corn growing contest this year, had been received by the state agricultural commission up to today. Announcement was made that definite preparations for the trip to Washington and New York, November 4, to December 5, which is to be the prize for winners of the corn contest, have been started. Final decision of the contest and naming of the winners will not occur for several weeks.

T. P. Riddle, of Lima, who has general charge of the corn boys tour, has made arrangements to accommodate all persons, either adults or children, on the special trains even if they are not winners in the contests. These will have to pay the costs of the trip, which will be about \$60 for adults and \$50 for boys and girls.

Preliminary reports made by corn growers show that the hundreds of Ohio boys understand the science of getting the most and best corn out of their soil with varying conditions of weather, better than they ever understood before," says H. F. Fricke, who has charge of grading the reports.

"Many reports are carelessly made and must be returned, however. This will cut the chances for any boy," he continued. A number of girls who win contests in domestic science tests and school beautification will go on the trip. Winners of apple growing contests also will be included. The four state supervisors of agricultural education have been appointed by Mr. Riddle directors of one train each from their quarters of the state. It is planned to have seven special trains convey the party. Last year 1610 boys and girls took the trip. Officials expect about the same number this year.

REGISTER Friday or Saturday; 8 a. m. to 2 p. m. and 4 to 9 p. m. Last Chance.

KING NICHOLAS OF MONTENEGRO BLAMES GERMANY

ASSOCIATED PRESS TELEGRAM. Rome, via Paris, Oct. 15.—The Gazzetta del Popolo, a Turin newspaper, having asked King Nicholas of Montenegro to give his views regarding the war, received an answer from General Martinovitch, who, in the name of the king, replied as follows: "This terrible war is the revenge—atempted throughout a century, which this time we hope will be strictly defined—of oppressed nationalities against the nefarious work of the Vienna congress."

"The nationalities supported by the triple entente did not provoke the sanguinary struggle which was imposed upon them by the reactionary spirit of the German world, wishing definitely to consolidate its own region on the sufferings of the weak in contempt of international law."

The general added that the neutrality of Italy contributed to the successes against the oppressors. The Italian government will be able to choose the moment favorable to take such new decisions as are claimed by Italian interests, he continued. He ended by saying he hoped that Italy, besides rejoining her children still outside her kingdom, would help the Slav nationalities in the Balkans to take the place due them on the steps of the altar where justice laws.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of swelling, get about four ounces of Jad Salts from any reliable pharmacy and take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful of forceful lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.
